

ja.cat: your link shortener in Catalan

ja.cat is the link shortener of the .cat domain. It lets you turn any long URL into a short, personalised link that's easy to share. In this guide we explain all the features of the tool and how to make the most of it.

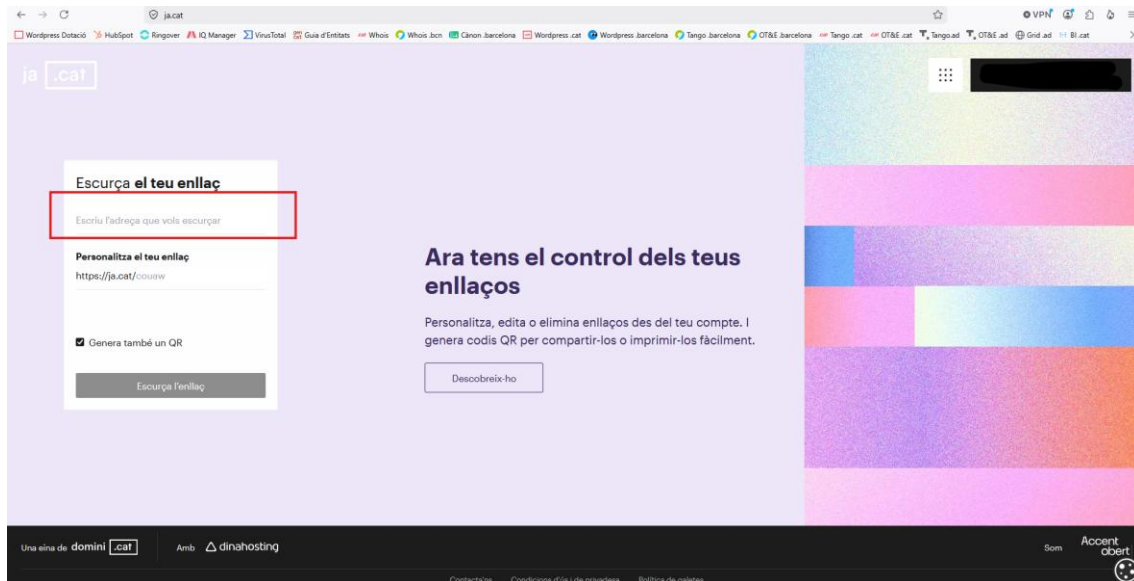

How to shorten a link with ja.cat: step by step

Shortening a link with ja.cat is very straightforward. Just follow these steps:

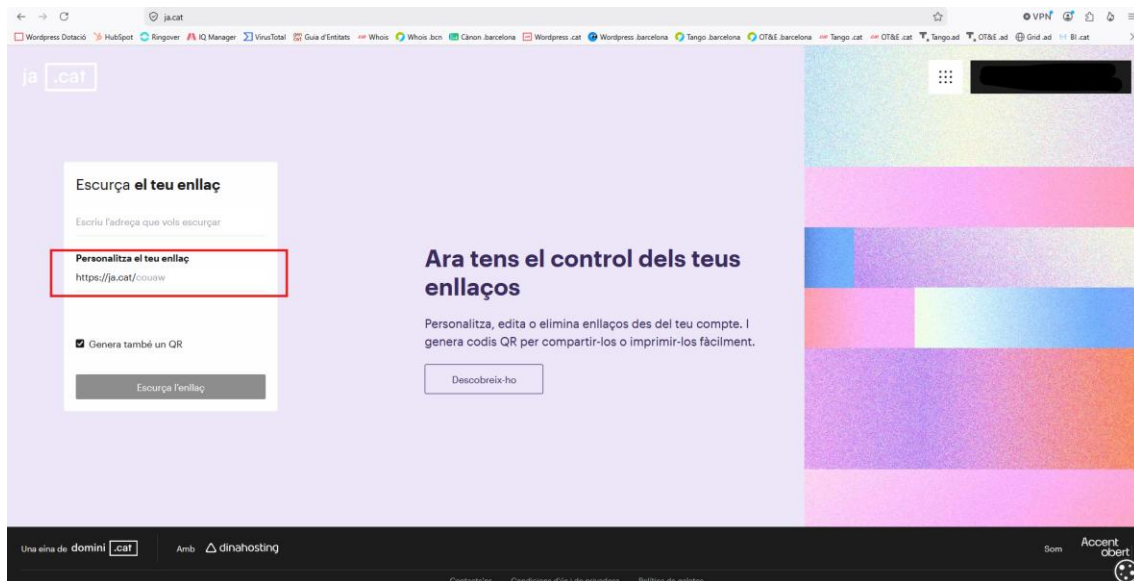

1. Go to ja.cat and log in with your username and password or with your .cat domain.

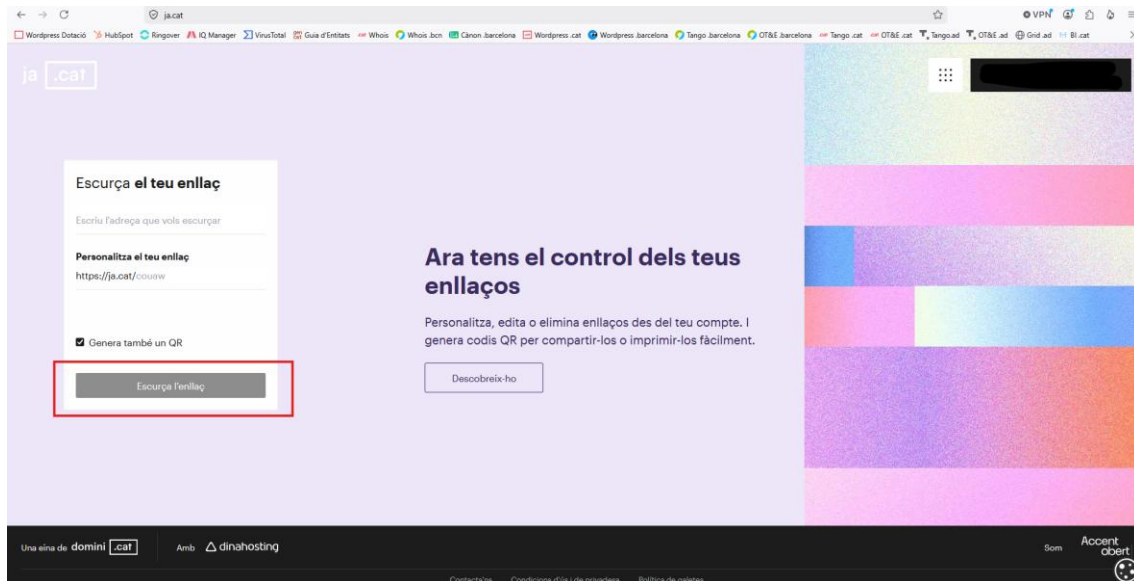

2. On the main screen, paste the long URL you want to shorten into the corresponding field.

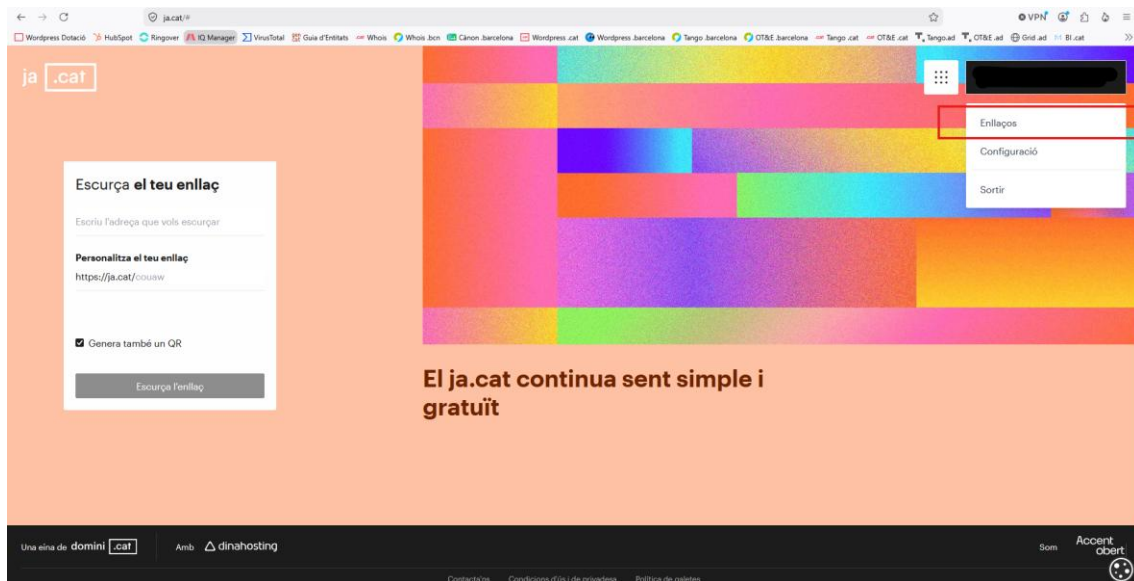

3. Choose the name for your short URL: pick something clear and easy to remember.

4. Click "Escarça" to generate the link.

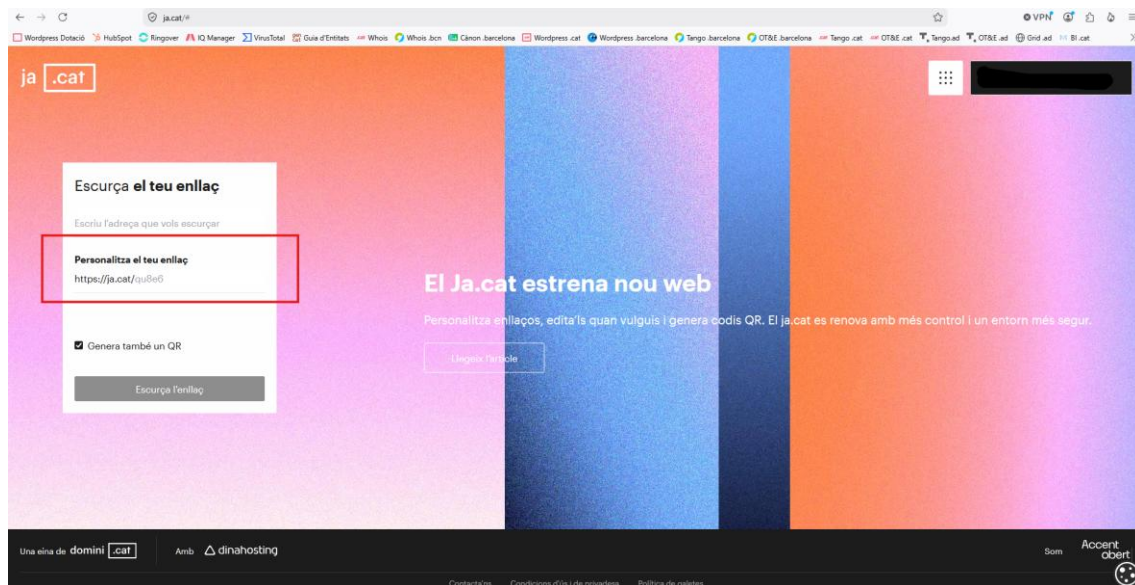

5. Your new link will appear in the control panel, where you can copy it, generate the QR code or manage its status.

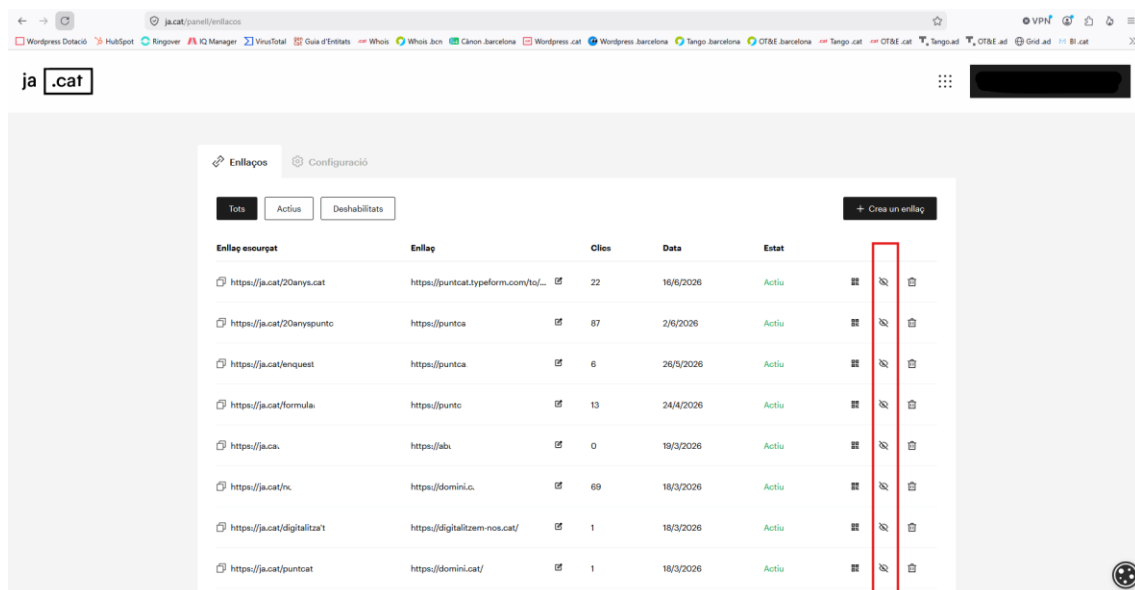

What could you do with ja.cat until now?

With the new ja.cat interface, you could already:

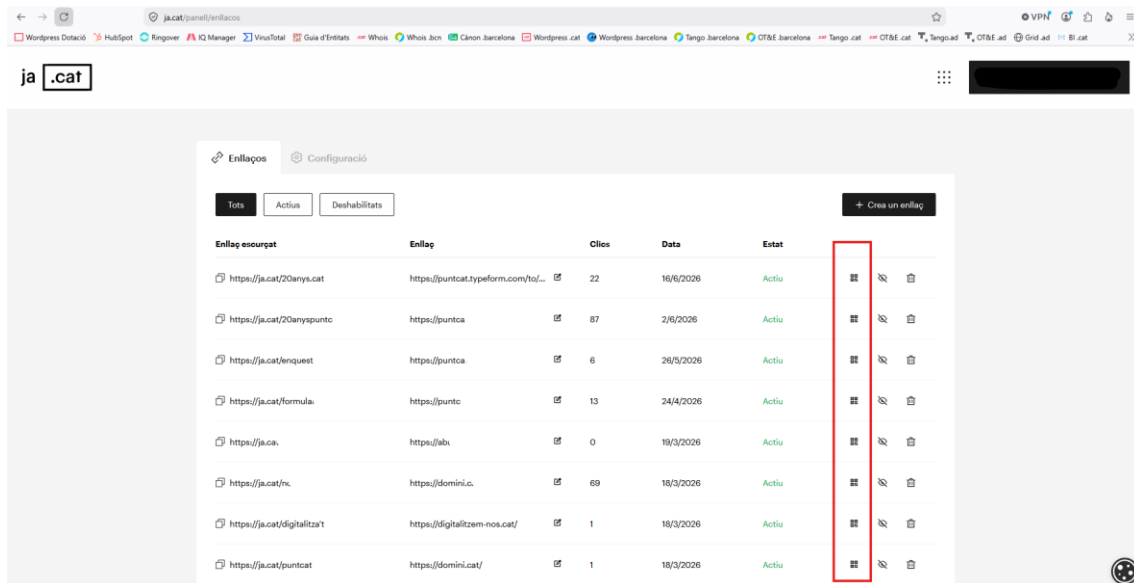

- **Access a mobile-friendly environment:** shorten links from anywhere, with a clear and intuitive layout on both desktop and mobile.
- **Choose your short URL:** so it's clear and easy to remember.

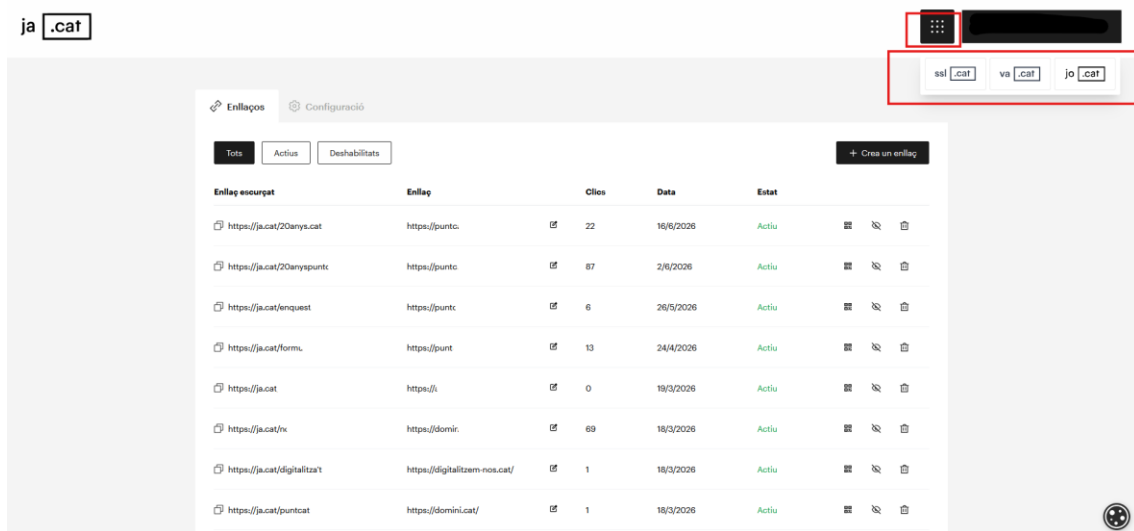

- **Enable, disable and delete links:** if you want to pause them temporarily or remove them permanently.

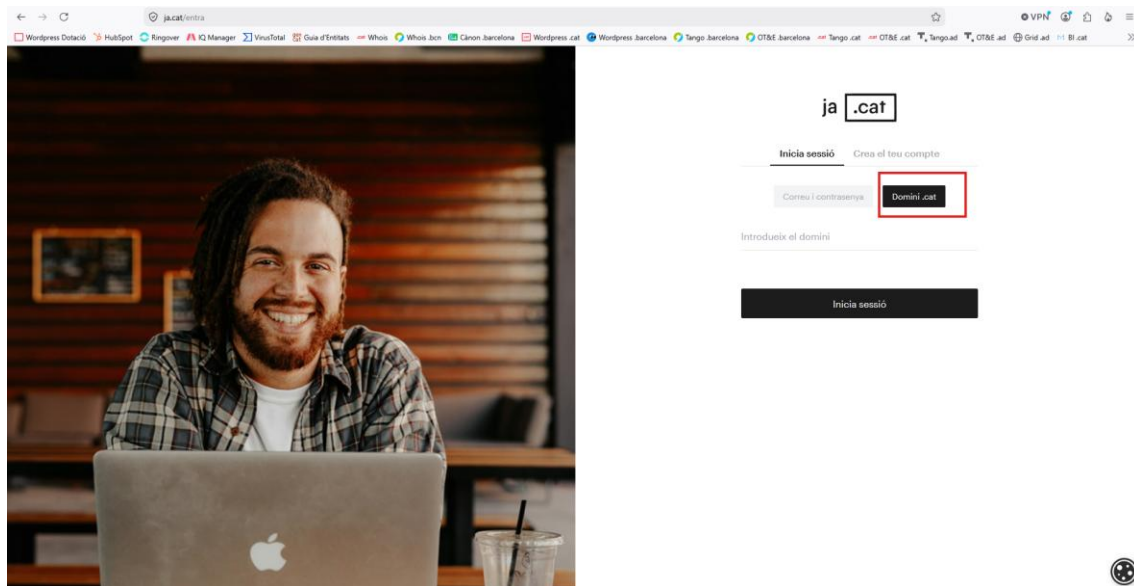

- **Generate and download QR codes:** ready to print or share in digital materials.

- **Integrate with the .cat domain tool ecosystem:** use the rest of the tools offered by the .cat domain in a much simpler way.

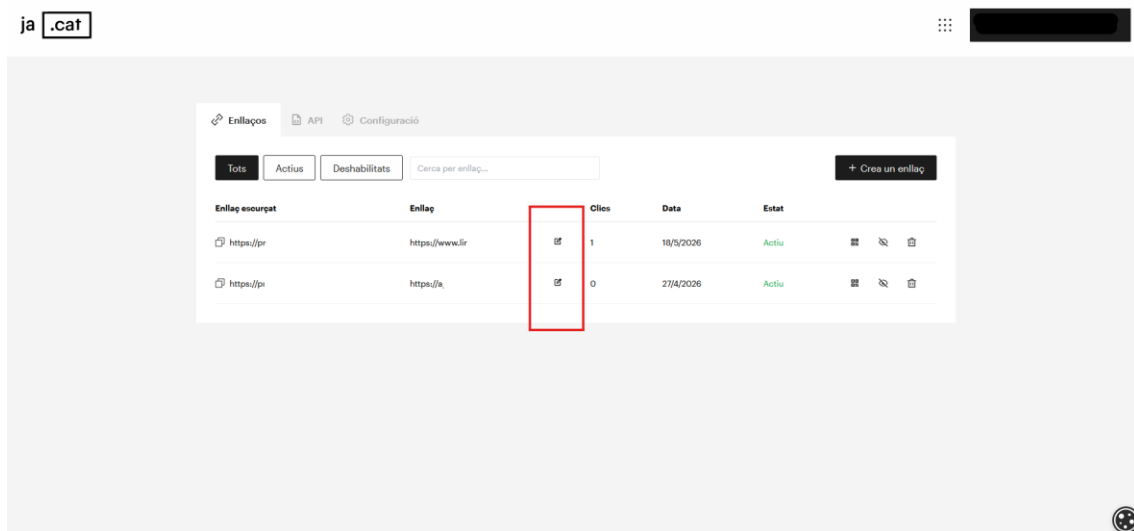

- **Log in with your .cat domain:** the easiest way to access your account.

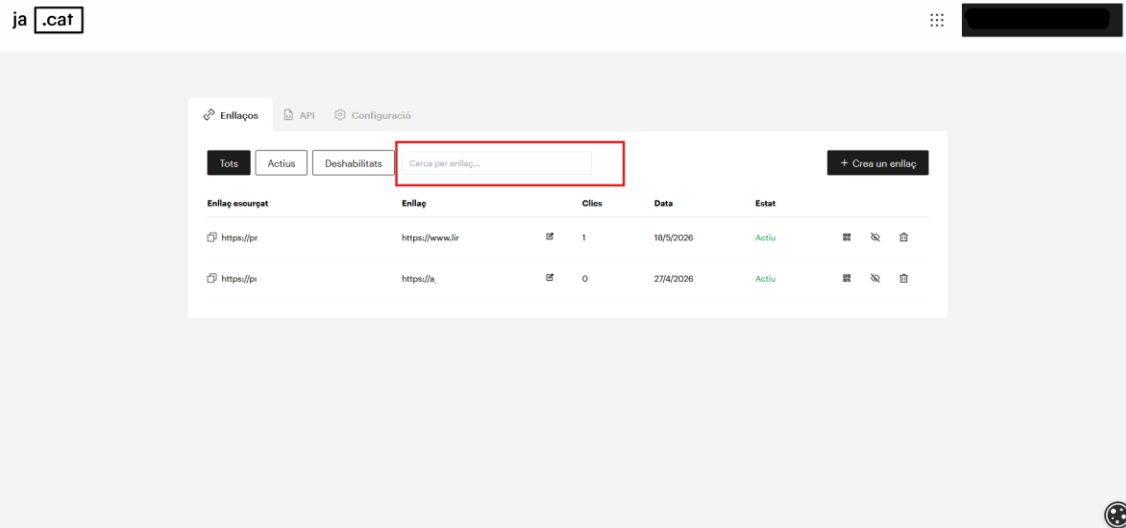

What else can you do now with ja.cat?

Now, from your control panel, you can also:

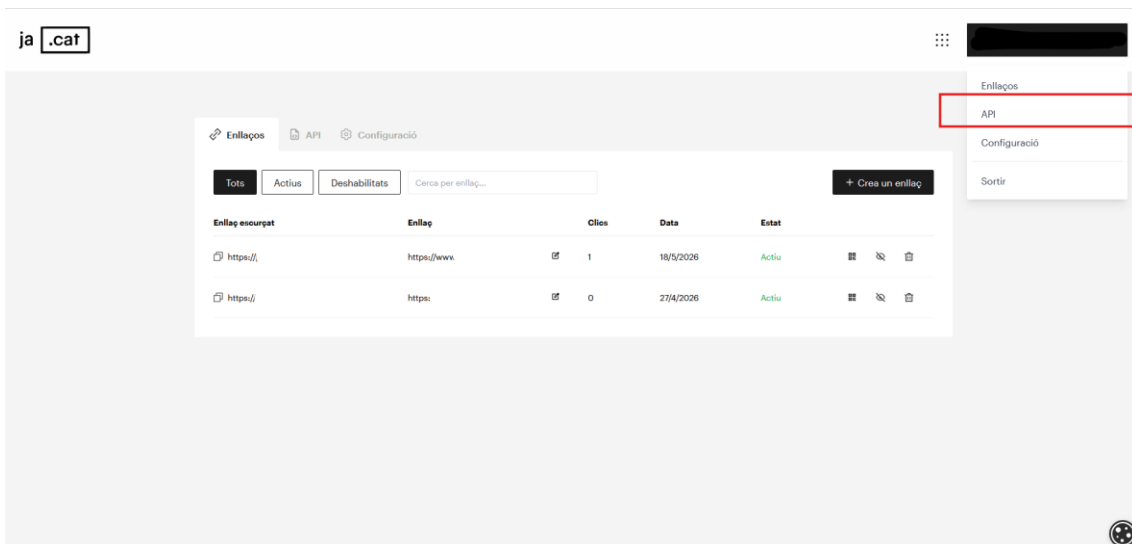

- **Edit an existing link:** if the destination URL changes, there's no need to create a new short link; you can edit the existing one directly without losing the shortened URL.

- **Search through your links:** if you have many links, the built-in search lets you find any of them quickly without scrolling.

- **Use all ja.cat features through an API:** automate everything you need from your ja.cat with our guide.

Not using ja.cat yet? Give it a try!

In Catalan, free and open to everyone. Shorten and share your links in a very simple way.
